

Reflekt

Highly Reflective Backsheets for Power-boosting Applications

Enhanced Reflectivity

Reflekt's high level of reflectivity can boost your module's power output.

Long Lasting Reflectivity

Reflekt's reflective quality remains superiorly stable over the life of the module.

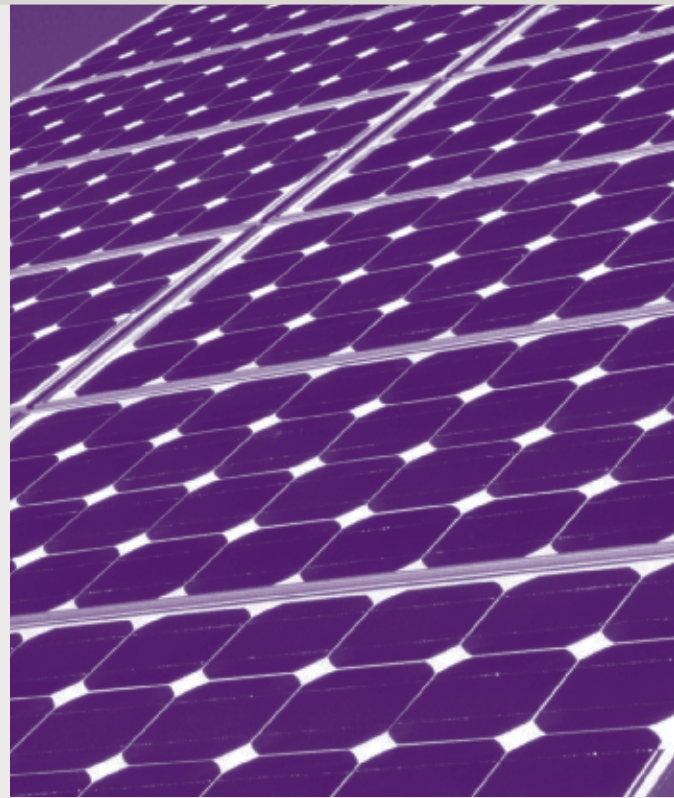

No Adhesive Layer

The Reflekt design eliminates the adhesive layer, creating a stronger backsheet with less risk of delamination.

All the Performance Advantages of Hytek

Prime Version Additional Advantages:

- 3000 Damp Heat
- High RTI
- Varying thicknesses for tailored applications

Reflekt Product Options:

- **Reflekt**
Standard product
- **Reflekt Prime**
Higher performing product
Specially formatted for higher RTI
