

The Madico Advantage

Creating Focused and Innovative Solutions

Backsheets are essential to module performance. There is no substitute for quality, reliability and service; this is the Madico Advantage. Our commitment to lean manufacturing and logistic excellence enables process and product advancements in front of customer demand.

Performance Advancements:

- Enhanced product performance solutions
- Exceeds industry testing standards
- Designed with precision to meet target performance requirements

Process Advancements: Cost Savings with Increased Quality

- "Smart Sheeter" custom sheeting, reducing lead time, shipping and production costs
- Extrusion - New technology for backsheet production, resulting in high value, high performance
- Multiple Manufacturing factories for regional supply
- A wide variety of shipping options
- Vendor Managed Inventory (VMI)
- Internal Performance Analysis Lab, which allows for testing accuracy and speed

Performance solutions:

- Proven field and lab performance
- Complete UL and TUV listing

Service Advancements:

- Multiple global locations
- Global customer and technical support
- Quality assurance and support
- Multi-sourcing and contingency planning
- Certification support

Smart Sheeting

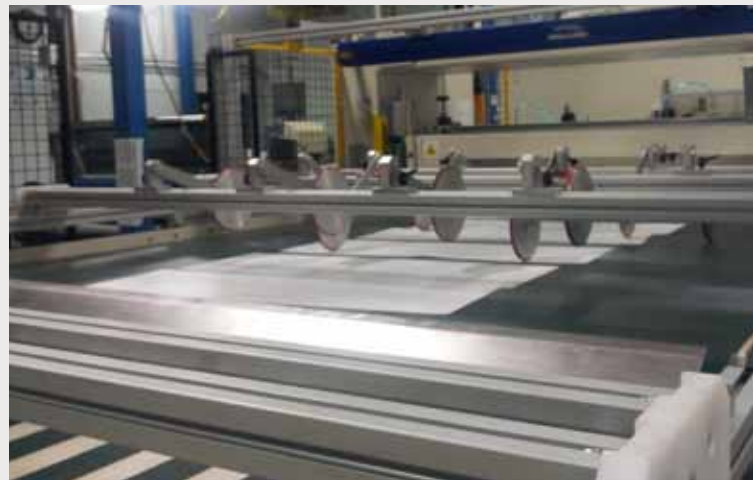

Innovation in the Spirit of LEAN Manufacturing

Process Advancements Increasing Quality while Reducing Cost

Our commitment to lean manufacturing and logistics excellence enables process and product advancements in front of customer demand. Our newest “value add” advancement is our high speed “Smart Sheeter” offering custom sheeting abilities equipped with immediate quality detection and resolution. The “Smart Sheeter” offers customers shorter lead times, advanced quality control, with reduced shipping and module production cost.

Advantages for Sheeting

- Reduce freight cost
- Reduce capitol equipment cost
- Reduce labor cost
- Reduce manufacturing time
- Increase profits
- Smart Sheeting is Customizable and High Speed
- You will no longer need:
 - To Unwind
 - A Sheeter
 - Hole Punching Tools
 - A Stacker
- Will allow for a reduction in capitol equipment =
Reduced costs (purchasing, maintenance, labor, etc.),
space savings, & less accidents
- Madico sheets reduce cycle time, as they can go directly
from receiving to production
- Cuts labor costs and allows you to redirect your
manpower to panel production

Madico's New "Smart Sheeter"
