FOR IMMEDIATE RELEASE

Enlog LLC signs Sales Representative Agreement with Madico Inc Photovoltaic Division

WOBURN MA - May 16, 2012 Madico Inc., PV Backsheet manufacturer, announces that Enlog LLC, Photovoltaic Industry sales company, has signed an agreement to represent the Madico Photovoltaic Backsheet Division in the territories of India, Pakistan and Bangladesh.

On April 30th, 2012 Madico received the final, signed agreement for representation of the Madico Backsheet products by Enlog LLC, a worldwide New York based sales company focused solely on the Photovoltaic Industry.

This focused, and seasoned, experience with the Photovoltaic Market was an important factor for Madico when seeking out candidates for representation. "Both of our companies have a long history in PV," stated John Storms, Madico's Senior Sales Manager. "Enlog has been in the business since 1995, and has a very reputable presence in India that will complement Madico's strong brand in this region. We are excited about the long term growth opportunities for PV in that region." As the Photovoltaic market continues to grow, Madico anticipates this new agreement will help to expand and strengthen their presence in the represented territories, especially in that of India.

"Enlog LLC could not feel more positive about working with Madico, a proven and innovative leader in back sheet technology. This is an excellent addition to our portfolio of high quality PV module components. We look forward to growing together in these rapidly developing markets." commented Franz Kaufmann, President of Enlog LLC.

Madico has more than 20 years experience in the market themselves; they are confident that teaming with Enlog will result in success for both parties. Both companies look forward to working together in the months ahead.
